

# Comprehensive Support Program

Provides: Ink, Paper, Service & Software Support  
All for 1 low price per square foot

## How the E-Z Print helps Customers Stay Productive

Patriot will provide you with Genuine HP inks, roll bond paper, complete service and software support.

*Rather than asking you to pay for these items individually, we instead invoice you based on the number of square feet printed per month.*

### Need Paper?

Call us or e-mail us with your order and we will deliver it at No Charge.

### Need Service?

Call or e-mail us and a HP Certified Tech will be dispatched immediately. Quite often, issues can be addressed remotely for an even quicker response. This is also at No Charge.

### Need a Part?

We have them in stock for every HP we have under contract. Parts are also at No Charge.

### Need Ink?

Our Active Ink Management System (AIM) monitors your HP and ink is **automatically** shipped to ensure that you never run out.

### How Do We Pay?

Each month, your machine automatically sends your usage information and you are simply charged for the number of square feet printed.

## Why our Customers Love E-Z Print

### Savings

We pool thousands of customers supply requirements to leverage huge discounts from vendors. This enables us to provide the best, most stable pricing.

### Convenience

One call or e-mail to keep your HP running smoothly. We will get to know you and your business.

### Improved Cash Flow

Rather than going on-line to sink hundreds, sometimes thousands of dollars into ink and paper that can sit for months and possibly expire, instead, pay **only** for what you use, **after** you use it.

### Quality Assurance

Patriot uses only **Genuine HP** parts and supplies. All preventive maintenance schedules are followed exactly to HP specifications. This contributes to **longer machine life**.
